

- 1) Permesso di costruire: termini del procedimento e contenuti di massima della relazione istruttoria.
- 2) La progettazione delle Opere Pubbliche.
- 3) Il procedimento amministrativo ai sensi della legge 241/1990.

The image shows a circular official stamp in the center, surrounded by several handwritten signatures in blue ink. The stamp contains the text "Comune di Fossano" at the top, "Dipartimento" at the bottom, and "Consiglio Generale e Legali" on the sides. In the center of the stamp is a coat of arms featuring a griffin. To the left of the stamp is a signature. Below the stamp is another signature. To the right of the stamp are two more signatures, one above the other.

London

London is a famous and historic city. It is the capital of England in the United Kingdom. The city is quite popular for international tourism because London is home to one of the oldest-standing monarchies in the western hemisphere. Rita and Joanne recently traveled to London. They were very excited for their trip because this was their first journey overseas from the United States.

Among the popular sights that Rita and Joanne visited are Big Ben, Buckingham Palace, and the London Eye. Big Ben is one of London's most famous monuments. It is a large clock tower located at the northern end of Westminster Palace. The clock tower is 96 meters tall. Unfortunately, Rita and Joanne were only able to view the tower from the outside. The women learned that the tower's interior is undergoing renovations until 2021.

PROVA N. 2

- 1) Termini e modalità di verifica della completezza documentale di una segnalazione certificata di agibilità.
- 2) I criteri di aggiudicazione delle Opere Pubbliche.
- 3) La motivazione del provvedimento amministrativo ai sensi della legge 241/1990.

Innovation in business

What does it mean to be innovative in business?

In order for a business to survive in today's world, it is important that we regularly review what we are doing and how we are doing it. By considering new ideas and new ways of doing things, and trying to innovate, we can improve on our products/services, increase sales, reduce costs and make our processes more effective and efficient. Innovation is key to increasing profits.

There are several ways a company can be innovative with their products and services. Today we will look at four of them.

1. Using the latest technology to improve your product/service

When we think of innovation, we often think of new technologies. While they might be impressive, we should not use new technologies just because they are available. It is important to consider how the technology can improve our product/service and make a difference to our customer. Companies that produce cars, toiletries, household appliances, etc. often have a large R&D department to work on making their products better.

2. Responding to customer demands by changing what is on offer

By listening to customer feedback, we can get their opinions on how we are doing and find out about what it is that they want. We also need to be aware of changes in customer demands and keep up with the times. When fast-food restaurant McDonald's realised that the market wanted healthier choices, they introduced fruit and salads, while removing the 'super-size' option from their menus.

3. Offering a new product/service to reach new customers

Your business might be doing well, but there is no growth or development and there is a risk that your competitors might take away some of your customers. Innovation sometimes means developing a new product that targets a different market. Although video games were often played by boys, in 2006, video games giant Nintendo introduced the game console Nintendo Wii, successfully targeting girls and older customers with games like Cooking Mama and Brain Training.

Fossano

Handwritten mark at the top of the page.

PROVA N.3

- 1) Termini per il rilascio e contenuti di un Certificato di Destinazione Urbanistica.
- 2) La programmazione triennale delle Opere Pubbliche.
- 3) Il diritto di accesso agli atti amministrativi ai sensi della legge 241/1990.

Handwritten signatures and a circular stamp.
The stamp is circular and contains the text: "Comune di Fossano", "Dipartimento di Cuneo", and "Ufficio Affari Generali e Scali". It features a central emblem with a crown and a shield. Several blue ink signatures are written over and around the stamp.

Five restaurant reviews

Barry G: We stopped at the White Horse Inn for lunch during a long journey. My wife ordered the lasagne and I ordered a steak and ale pie. We waited over thirty minutes for our food, and when my pie arrived, it was chicken and mushroom. When they brought the correct pie, I picked up the gravy and found that it was completely cold. When I went to the bar and asked for it to be heated and suggested that we should get a partial refund, the barman swore under his breath. When I finally started eating, my wife had already finished her meal. Avoid this restaurant at all costs!

Emma1987: We decided to come here for our Sunday lunch. The prices were a bit steep, but we thought it would be worth it, if the food was good. Sadly, we were disappointed. Our sausages were burnt and so dry that we couldn't even cut them. My partner's steak was even worse. It certainly wasn't worth the money. It wasn't even a pleasant place to spend a Sunday. The carpet was old-fashioned and worn, the chairs were uncomfortable and the walls needed painting. Very disappointing.

PGRigby: We were passing by and felt hungry, so we decided to stop here for a meal. We got a warm welcome and were impressed with the wide selection of beers and the extensive menu. The dishes are mostly traditional, and not very adventurous or exotic, but it was decent, reasonably priced, warm and well presented. We were served quickly, considering there were seven of us, and the staff were polite. Overall, it was good value for money and I would definitely go there again.

PROVA N.4

- 1) Termini e presupposti per il rilascio del permesso di costruire in sanatoria.
- 2) La gestione della contabilità all'interno delle Opere Pubbliche.
- 3) L'efficacia del provvedimento amministrativo ai sensi della legge 241/1990.

The image shows a collection of handwritten signatures and an official stamp. On the left, there is a single signature in black ink. In the center, there is a circular official stamp with the text "Comune di Fossano" and "Dipartimento di Architettura, Urbanistica e Legalità". The stamp is surrounded by several blue ink signatures and initials, including a large one that overlaps the stamp, and the initials "MS" written below it.

The arm of Liberty

The Statue of Liberty is probably the most famous icon of the USA. It was built to celebrate the end of slavery, and later became a symbol for freedom among immigrants. The statue depicts Libertas, the Roman goddess of liberty. And the torch she carries high above her outstretched arm represents a light that guides people along the path to freedom. Interestingly, however, Liberty looks different from the way the designer first intended.

The idea for the statue came from a poet, Édouard de Laboulaye. When the American Civil war ended, he wanted to commemorate the end of the slave trade with a gift. He and other people who opposed slavery raised money and hired a sculptor, Frédéric-Auguste Bartholdi, to design the statue. Bartholdi later employed the French engineer, Gustave Eiffel, to devise its structure. Eiffel, who would subsequently build the famous tower in Paris, was already a well-known designer of railway bridges. So he knew how to build robust structures that are flexible and safe in strong winds. This feature was necessary because the winds in New York harbor are extremely strong. Today, the top of her torch swings over 15cm when the wind is blowing at 50 miles per hour.

Eiffel designed the statue to be built around a massive metal skeleton, similar to the Eiffel tower. Huge pieces of copper were fixed onto this to form its shape. Until recently, two copies of the plans were believed to exist. But recently, a third copy was discovered, which revealed some interesting information. In 2018, a map dealer bought some historic papers at an auction in Paris, which included original plans, calculations, and drawings of the statue. At first, the documents were too fragile to read. But after special treatment, the papers clearly showed that Eiffel's plans had been changed by Bartholdi with red ink. Liberty's arm, which was thick and vertical in Eiffel's drawing, was adjusted to be slimmer, less upright, and generally more attractive than Eiffel's design.
